April 28, 2015

Dear Parents:

We recently had an increase of food allergy reactions in school.

To ensure the health and safety of all of our students, the only snacks permitted in school are those listed on our website or on a list provided by your child's teacher. Please know that these allergies can be life threatening. Snacks should be in their original packaging so that ingredients can be read. All other snacks will be sent home. Please discuss the importance of food allergies with your child and discourage the sharing of food. Food is not permitted on the bus.

If you have any questions, please feel free to contact me.

Elizabeth Gebert, RN
